

MULTI GARMENTS & PRINT
Reaching Beyond Limits

ABOUT MULTI GARMENTS & PRINT

Multi Garment & Print, started its operations in 1995 and has embarked on a journey of excellence and reliability ever since. We deal in providing premium quality printing and packaging material based on the needs of our valued clients. We export products including corrugated boxes, printed cartons, labels, stickers, printed merchandises and much more, enabling our clients to get beautiful packaging materials for their products.

We understand how branding of your packaged products can help your business succeed and grow. Therefore, we dedicate ourselves in providing the optimal packaging solutions to enhance your brand personality that would speak volumes for your business.

OUR PRODUCTS & SERVICES

For years we have helped companies establish a strong brand persona by providing them with our high-quality services and products. We manufacture and export all kinds of branding and packaging materials for FMCGs, Garments, Food and other industries. Our products and services include:

OFFSET PRINTING

Our modern, high speed presses are capable of high-quality multicolored printing; our die cutting and pasting machines enhance our capability further, enabling us to fulfill customer requirements in quick turnaround time. Our quality control makes MGP an excellent choice when it comes to printing and packaging for your products.

FLEXOGRAPHIC PRINTING

Our goal is to find ways to be efficient and cost effective while meeting high consumer expectations. That's why we are pleased to offer high speed flexographic printing to provide high volumes of prints in up to 4 distinct colors on products of all shapes and sizes.

CORRUGATED CARDBOARD

We are committed to design and produce custom corrugated cardboard boxes and packaging at a competitive rate, while building long-term relationships based on trust, personal responsibility and a thorough understanding of our client's needs.

POLYPROPYLENE WOVEN BAGS

Polypropylene (PP) is exceptionally suited to maximize visual appeal of food and display products. At MGP, we are able to provide an outstanding professional appearance to our clients' packaged products with the help of polypropylene (PP) packaging.

POLYPROPYLENE WOVEN LAMINATED SHEETS

We are also the proud manufacturer of clear woven sheets and bags which also go by the name of natural woven laminated sheets. This fabric is offered in standard as well as customized length, weight, gusset, meshes. We also welcome the customized orders to meet the specific requirements of our clients.

POLYETHYLENE BAGS

We manufacture and supply custom polyethylene bags. Our products are manufactured to our clients' custom specifications and according to the highest quality standards.

POLYESTER (PET) STRAPPING

PET STRAP performs well during shock loading, has high elasticity, and by virtue, are unaffected by weather conditions, They also resist UV rays and hold tension even in extreme of temperatures and humidity.

We provide high-quality, durable PET strapping material to our clients that enables them to consume less storage space and substantially reduce manual labor and transportation costs as compared to steel strap.
